Coronavirus (COVID-2019) Resources

United Church of Christ Office:

[Coronavirus and the Church](#)

Coronavirus disease 2019 (COVID-19) is a respiratory illness that can be transmitted from person to person. It is caused by a virus that can also live on surfaces near where an infected person has coughed, sneezed or exhaled. It has spread throughout the world in the first quarter of 2020, causing illness, and, in some cases, death. Its effects in various countries and localities have ranged from cancellations of public gatherings, to limits or bans on travel, to drops in financial markets.

Like other organizations, churches must take appropriate health precautions. We also have a special responsibility to care for members and neighbors. This web page contains information that all settings of the United Church of Christ – local churches, associations, conferences and national ministries – have contributed to and may find useful. Resources also come from our ecumenical partners and respected health organizations.

Illinois Conference of the United Church of Christ:

[COVID-19 and the Illinois Conference UCC](#)

As we live into new ways of being the Church during this pandemic, look to this page for resources, updates, and news as it relates to our conference churches and the United Church of Christ.

[Worship Service Live Streams](#)

As a precautionary measure against spreading COVID-19, churches are suspending their Sunday worship services and other events. I will make every effort to keep this page updated and appreciate our churches being in close contact to assist with this. Please email me at ilconfcarmen@gmail.com.
