Fall Zoom Meeting

Reframing Our Stories

We often get stuck by the stories we tell about our church. What is your church's story? Do you like the story? How can these stories be re-framed in a way that can heal the trauma, conflict, or hopelessness? How can telling and reframing our stories help us to see God at work? What stories of meaning and hope are going untold?

When we gather together we will hear how three of our churches have reframed their stories. We will then break into groups to share with each other our church's stories and explore how to reframe the story being told to create new meaning and hope.
